HYPOXI® is now open in Beauty Connection Spa, the largest day spa in the world

Wals-Siezenheim, September 2017

We are pleased to announce that BodySmart, HYPOXI's flagship studios in the UAE, has expanded its operations with the opening of its 3rd branch in Beauty Connection Spa, Dubai in February 2017. With 30,000 sq. ft., Beauty Connection Spa is the biggest spa in the UAE and the largest day spa in the world. It encompasses a wide range of treatments in beauty. By incorporating HYPOXI®, Beauty Connection Spa has now become a one-stop-shop for all beauty, slimming and wellness needs.

Clients have been getting phenomenal results which has contributed to the success of HYPOXI® in a very short span of time with over 20 new clients each month.

The HYPOXI® devices at a glance:

HYPOXI-Trainer® S120

The S120 combines the three components of HYPOXI-Method® effectively: The computer-controlled alternation of high and low pressure takes place in a chamber that reaches up to the hips. The gentle exercise takes place sitting on the integrated bicycle ergometer. This puts the problem areas – hip, underbelly, buttocks and legs - under pressure, facilitates the activity of the veins and eliminates fat in a targeted manner.

HYPOXI-Trainer® L250

The L250 permits the alternating application of low-pressure for the underbelly, hip, behind and legs. The comfortable reclined position relieves the body of most of its weight during training and promotes the elimination of liquids and toxins. The results are beautiful, slender legs and a visible reduction of cellulite.

HYPOXI-Vacunaut®

The Vacunaut is used to reduce the girth of the stomach and hips. Training is performed in the HYPOXI®-PressureSuit with an integrated network of 122 high and low pressure chambers.

During moderate exercise - which can take place on a treadmill, exercise bicycle or other popular cardiovascular exercise equipment - the application of high and low pressure targets the abdomen and hips.

HYPOXI® HD-Comfort

In order to remain firm and strong the skin needs special treatments. 400 active vacuum chambers integrated in the problem areas in HYPOXI® HD-PressureSuit ensure that the skin gets the exercise it needs. A comfortable lounge chair with integrated high and low pressure technology ensures pleasant relaxation while the elastic connective fibres of the skin work diligently to achieve smooth, firm skin.
