BodySmart opens its 5th authorised HYPOXI-Studio in the UAE

Wals-Siezenheim, November 2018

We are pleased to announce the opening of the newest authorised HYPOXI®-Studio at **Naturopathy Touch Spa and Rehabilitation Center** in Dubai, United Arab Emirates.

The studio located in Jumeirah Lake Towers targets men and women in the mainly expatriate neighborhood that offers multiple choices available from leisure & recreation through to retail, hospitality, dining and outdoor activities.

BodySmart, established in Dubai in 2005, is the leading supplier of concepts for targeted body shaping in the UAE, comprising of world-class innovative technologies such as HYPOXI® and LPG. BodySmart has an ever growing database of clients who are conscious of their health, wellness and fitness & have a massive expansion plan in the region. The HYPOXI®-Studio in Naturopathy Touch Spa and Rehabilitation Center is already BodySmart's 5th authorised HYPOXI®-Studio and operated as a business collaboration.

Naturopathy Touch Spa and Rehabilitation Center have 2 branches in Jumeirah Lake Towers. They specialize in complete beauty and wellness with services such as LPG, Laser Hair Removal, a Yoga studio, Ladies and Men's Salons, Massages, Spray Tanning, Solarium Sunbed Tanning, Teeth Whitening among other services for men and women. By incorporating the HYPOXI-Method®, the spa has now become a one-stop-shop for all aesthetic, slimming, targeted bodyforming and wellness needs.

The HYPOXI® devices at a glance:

HYPOXI-Trainer® S120

The S120 combines the three components of HYPOXI-Method® effectively: The computer-controlled alternation of high and low pressure takes place in a chamber that reaches up to the hips. The gentle exercise takes place sitting on the integrated bicycle ergometer. This puts the problem areas – hip, underbelly, buttocks and legs - under pressure, facilitates the activity of the veins and eliminates fat in a targeted manner.

HYPOXI-Trainer® L250

The L250 permits the alternating application of low-pressure for the underbelly, hip, behind and legs. The comfortable reclined position relieves the body of most of its weight during training and promotes the elimination of liquids and toxins. The results are beautiful, slender legs and a visible reduction of cellulite.

HYPOXI-Vacunaut®

The Vacunaut is used to reduce the girth of the stomach and hips. Training is performed in the HYPOXI®-PressureSuit with an integrated network of 122 high and low pressure chambers. During moderate exercise - which can take place on a treadmill, exercise bicycle or other popular cardiovascular exercise equipment - the application of high and low pressure targets the abdomen and hips.

HYPOXI® HD-Comfort

In order to remain firm and strong the skin needs special treatments. 400 active vacuum chambers integrated in the problem areas in HYPOXI® HD-PressureSuit ensure that the skin gets the exercise it needs. A comfortable lounge chair with integrated high and low pressure technology ensures pleasant relaxation while the elastic connective fibres of the skin work diligently to achieve smooth, firm skin.
