

## Press release

### The journey of HYPOXI® Vietnam

Straß im Attergau, October 2023

#### "The Journey's Party", the title of a glorious celebration of the HYPOXI®-Team Vietnam:

It was a review of the exhausting years of construction, an appreciation of what was achieved and at the same time, a thank you to everyone who took part in the successful "journey".

The Hanoi Acoustic Band provided the best entertainment, which transformed old classics such as Cheri Cheri Lady, Lemon Tree and Can't Take My Eyes Off You into new, trendy songs.

Fascinating magic performances by Truong Cong Tuan, the master magician who also used his magic to find the luckiest person on the party night, thrilled those in attendance. The lucky person was rewarded with a Dyson hair styler and a cell rejuvenation NMN treatment worth \$2,000.

The performances of the two salsa professionals fascinated and motivated the guests to participate in an entertaining salsa class. The two best dancers were awarded and received a set of goods and a HYPOXI® package.

The HYPOXI® management (Mr. Dean Ramos COO of FLG and Ms. Navy Luong, Country Manager of HYPOXI®) presented the new projects to the good-humoured guests, ensuring further positive development of HYPOXI® Vietnam and making the vision come true.

With "The Journey's Party", HYPOXI® thanked everyone who followed the journey and honoured the outstanding achievements that were inspiring for everyone present.

Honored were: FOUNDING MEMBERS, BEST DUO, THE BEAUTY (oldest member), THE BEE (hardworking client/coach).

## The HYPOXI® devices at a glance:

### HYPOXI-Trainer® S120

The S120 combines the three components of HYPOXI-Method® effectively: The computer-controlled alternation of high and low pressure takes place in a chamber that reaches up to the hips. The gentle exercise takes place sitting on the integrated bicycle ergometer. This puts the problem areas – hip, underbelly, buttocks and legs - under pressure, facilitates the activity of the veins and eliminates fat in a targeted manner.

### HYPOXI-Trainer® L250

The L250 permits the alternating application of low-pressure for the underbelly, hip, behind and legs. The comfortable reclined position relieves the body of most of its weight during training and promotes the elimination of liquids and toxins. The results are beautiful, slender legs and a visible reduction of cellulite.

### HYPOXI-Vacunaut®

The Vacunaut is used to reduce the girth of the stomach and hips. Training is performed in the HYPOXI®-PressureSuit with an integrated network of 122 high and low pressure chambers.

During moderate exercise - which can take place on a treadmill, exercise bicycle or other popular cardiovascular exercise equipment - the application of high and low pressure targets the abdomen and hips.

### HYPOXI® HD-Comfort

In order to remain firm and strong the skin needs special treatments. 400 active vacuum chambers integrated in the problem areas in HYPOXI® HD-PressureSuit ensure that the skin gets the exercise it needs. A comfortable lounge chair with integrated high and low-pressure technology ensures pleasant relaxation while the elastic connective fibres of the skin work diligently to achieve smooth, firm skin.
